

Since 2008, FTSE Group has partnered with Bolsas y Mercados Españoles (BME) to manage and calculate in real time the FTSE4Good IBEX Index.

The index comprises companies in the BME's IBEX 35 Index and the FTSE Spain All Cap Index that demonstrate good sustainability practices. Companies need to meet a variety of environmental, social and governance criteria to meet the inclusion requirements. The FTSE4Good selection criteria are designed to reflect strong ESG risk management practices.

Criteria are developed using an extensive market consultation process and are approved by an independent committee of experts. A broad range of stakeholders help shape the criteria, including NGOs, governmental bodies, consultants, academics, the investment community and the corporate sector. To remain consistent with market expectations and developments in ESG practice, the inclusion criteria are revised regularly. FTSE Russell engages with companies that no longer meet the standards and they are given a period of grace to try and improve their scores. If there is no improvement, then the company is deleted from the index series. The criteria have been designed to help investors minimize ESG risks. Companies with the largest risk and impacts have to meet additional sector specific criteria.

The index is a tool for investors seeking to invest in companies that demonstrate good sustainability practices. It also supports investors that wish to encourage positive change in corporate behavior and align their portfolios with their values.

5 Y Performance (Capital Return) – EUR terms

Performance and Volatility – Capital Return

Index	Return %				Volatility %		
	6 M %	12 M %	3Y %	5Y %	1Y	3Y	5Y
FTSE 4Good IBEX	-0,79	-9,16	-6,63	-20,20	19,52	24,19	20,45
FTSE 4Good IBEX TR	1,01	-5,96	3,56	-4,44	19,49	24,21	20,45

IBEX 35 Total Return	-0,24	-8,50	-1,55	-10,49	19,85	24,20	20,51

Features

Coverage

The index has been designed to identify Spanish companies with leading corporate responsibility practices.

Transparency

Index governance is overseen by the independent FTSE Russell ESG Advisory Committee, made up of leading global responsible investment market practitioners and experts on global Environmental, Social and Governance (ESG) principles and criteria used to determine comparative corporate ESG performance.

Criteria

Companies need to meet a variety of environmental, social and governance criteria to meet the inclusion requirements – please see www.ftserussell.com for details

Objective

The indexes are designed for use in the creation of index tracking funds, derivatives and as performance benchmarks.

Liquidity

Stocks are screened to ensure indexes are tradable.

Capping

To avoid over concentration in any one stock market cap weightings are adjusted by free float and capped at 10% descending to 4% at index reviews.

Availability

The FTSE4Good IBEX Index is calculated in Euro on a real time basis. Capital and Total Return Indexes are available on an end of day basis in Euro.

Industry Classification Benchmark (ICB)

Index constituents are categorized in accordance with the Industry Classification Benchmark (ICB), the global standard for industry sector analysis.

ICB Supersector breakdown

	FTSE 4Good IBEX
1010 Technology	2,09
